MICROSPHERE SUMMIT 2023

29th & 30th March - Liverpool, UK

Programme

Hosted By

MICROSPHERE SUMMIT 2023

Liverpool, UK

Powder Systems Ltd (PSL) is delighted to once again be hosting the Microsphere Summit – a two-day event bringing together developers of new drugs with specialist manufacturers in an interactive setting.

The Summit provides an impressive programme of conferences, workshops and training sessions and is the ideal forum for discussions, ideas, solutions and networking.

Day 1: Conference Programme*

Wednesday 29th March 2023

Liverpool City Centre

Drug Formulation

Polymer Selection

Microsphere Creation Methods

Microsphere Processing

Process Analytical Technology

Freeze Drying

Filling Line Technology

Contract Development and Manufacturing Organisation

Early Bird & General Booking Details are included in this document.
For all other enquiries, email summit@powdersystems.com

*Summit Programme is correct as of 1 December 2022. Keynote Speakers to be announced.

Views expressed by speakers are their own. Alterations may occasionally be necessary due to circumstances beyond PSL's control.

Hosted By

MICROSPHERE SUMMIT 2023

Liverpool, UK

Day 2 of the Microsphere Summit will take place at the Centre of Process Excellence (C.O.P.E.™), based at PSL's HQ. This facility is designed as a fit-for-purpose space for collaboration, innovation and learning.

Through a combination of training and practical workshops, delegates have the opportunity to increase their knowledge of microsphere processing, in a hands-on setting. Delegates are encouraged to participate in Q&A sessions and network with individuals/organisations from all over the world.

Day 2: Microsphere Insight Training*

Thursday 30th March 2023

Powder Systems Ltd, Liverpool

Process Training

Achieving Efficient Microsphere Filtration
Designing a Microsphere Process Suite

Workshop 1

MSR™ Microsphere Refiner Vessel Overview & Cleaning Good Practice

Workshop 2

Microsphere Creation

Workshop 3

Microsphere Filtration and Analysis

Workshop 4

Microsphere Drying and Analysis

*Microsphere Process Insight Training Programme is correct as of 1 December 2022. Participating Organisations to be announced. Views expressed by speakers are their own. Alterations may occasionally be necessary due to circumstances beyond PSL's control.
